# MK25T EVO/S620X-Ti

Part number	Description	Retail
12.620.400	INT 232	18,500

SCUBAPRO's top regulator technology is on display in this ultra-light, corrosion-resistant reg system. The MK25T EVO is machined from a solid block of titanium which will not corrode, even in concentrated saltwater conditions, promising a century of trouble-free use. It offers excellent resistance to freezing, superb inhalation sensitivity and instant delivery of air on demand. The new S620 X-Ti, with its durable and good-looking titanium faceplate, embraces the best features of SCUBAPRO's renowned S600 in an upgraded, state-of-the-art design. Smaller and lighter than the S600 but using the same-sized diaphragm, the S620 X-Ti delivers excellent performance; work of breathing has been reduced by 37% over the S600, providing effortless airflow under all dive conditions. The full titanium inlet tube is ultra-light, the large purge button improves water circulation, and the new exhaust tee increases performance while directing bubbles out of the field of view for the ultimate in lightweight performance.

## First Stage

- Air-balanced flow-through piston in a full titanium body provides constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Patented XTIS (Extended thermal Insulating system) thermally insulates the inner mechanism from the environment, improving cold-water resistance by 30% and delaying ice formation in extreme cold-water conditions without compromising breathing performance. Key insulation system components are visible in blue.
- Anti-freeze protection radically increases breathing reliability when diving in the most extreme water temperatures.
- Two opposing high pressure ports allow the first stage to be positioned either up or down.
- Four high-flow and one axial super high-flow low pressure ports on a swivel turret maximize hose routing options.
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Weight: INT 232: 475g.
- Airflow at 200bar: (l/min): >8500.
- Intermediate pressure (bar): 9.2-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort at varying depths and supply pressures.
- Titanium barrel is rugged, anti-corrosion and lightweight for long-term reliability.
- Diaphragm fits inside a more compact casing for maximum breathing sensitivity.
- User controls include an easy-grip diver-adjustable inhalation effort knob and Venturi-Initiated Vacuum Assist (VIVA) lever.
- New exhaust tee increases performance while directing bubbles out of the field of view.
- Newly designed Compact Hi-Flow mouthpiece is mounted on an enlarged mouthpiece pipe to improve airflow as well as mouth comfort.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Specific matching colors (blue, pink, yellow, purple, white and orange) on mouthpiece and hose protector are available as an accessory.
- Weight: 168g.
- Airflow at 200bar: 1850 l/min.

Limited Lifetime Warranty

# MK25 EVO/A700 BT CARBON

Part number	Description	Retail
12.770.700	INT 232	10,950

SCUBAPRO's flagship reg system, featuring a tough hand-made carbon fiber cover on the A700's full-metal casing, plus a unique DLC Black Tech protective coating on both first and second stages. Offering superb breathing performance, excellent impact resistance and dependable protection against the ravages of salt water and corrosion, this race-car-sleek system looks as good as it works.

## First Stage

- Air balanced flow-through piston in a Black Tech-coated brass body provides constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Patent pending XTIS (Extended thermal Insulating system) fully insulates the inner mechanism from the environment, improving cold-water resistance by 30% and delaying ice formation in extreme cold-water conditions without compromising breathing performance. Key insulation system components are visible in blue.
- New spring insulating coating, body insulating bushing, anti-freeze cap, bigger body and cap thread all work in concert with the XTIS to improve cold-water performance.
- Anti-freeze protection radically increases breathing reliability when diving in the most extreme water temperatures.
- Two opposing high pressure ports allow the first stage to be positioned either up or down.
- Five high-flow low pressure ports on a swivel turret maximize hose routing options.
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Weight: INT 232: 790g.
- Airflow at 200bar: (l/min): >8500.
- Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort at varying depths and supply pressures.
- Hand-made carbon fiber front cover and rugged metal case and valve housing are able to withstand years of aggressive diving.
- Carbon fiber is virtually bulletproof and also extremely lightweight. The A700 Carbon's cover weighs only 10 grams, compared to the 42-gram weight of the original A700's metal cover, resulting in more comfortable diving.
- Special Torx cover screws are able to support a higher tightening torque without damage.
- Metal case construction enables the use of a larger diaphragm inside a compact casing, increasing breathing sensitivity.
- User controls include a diver-adjustable inhalation effort knob and coaxial-flow Venturi-Initiated Vacuum Assist (VIVA) lever.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.
- Weight: 233g.
- Airflow at 200bar: 2000 l/min.
- Maximum low pressure: 14bar.

Limited Lifetime Warranty

# MK25 EVO/G260 BT

Part number	Description	Retail
12.771.500	INT 232	8,300
12.771.600	DIN 300	8,500

A reg system aimed at technical divers, the MK25 EVO offers excellent resistance to freezing, superb inhalation sensitivity and instant delivery of air on demand. The G260's casing is built from rugged nylon fiberglass and uses freeze resistant components. Both first and second stages have a Black Tech scratch-resistant coating that protects against the ravages of salt water and corrosion. This durable coating includes an inner layer of chemical Nickel (FDA approved) and an outer glossy DLC (Diamond Like Carbon) finish. It's a rugged reg system that delivers solid breathing performance in all diving conditions and water temperatures.

## First Stage

- Air balanced flow-through piston in a Black Tech-coated brass body provides constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Patented XTIS (Extended thermal Insulating system) fully insulates the inner mechanism from the environment, improving cold-water resistance by 30% and delaying ice formation in extreme cold-water conditions without compromising breathing performance. Key insulation system components are visible in blue.
- Anti-freeze protection radically increases breathing reliability when diving in the most extreme water temperatures.
- Two opposing high pressure ports allow the first stage to be positioned either up or down.
- Five high-flow and one axial super high-flow low pressure ports on a swivel turret maximize hose routing options.
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Available in a 232bar INT or 300 bar DIN configuration.
- Weight: INT 232 : 790g.
- Airflow at 200bar: (l/min): >8500.
- Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort at varying depths and supply pressures.
- Rugged reinforced technopolymer design features SCUBAPRO's largest second stage casing and diaphragm for the ultimate in breathing sensitivity, regardless of position in the water.
- Dark anodized aluminum front cover ring adds scratch resistance without adding weight.
- Metal components, including metal air barrel and metal valve inlet tube, increase resistance to freezing when diving in extreme conditions.
- High-flow exhaust valve reduces exhalation for better overall breathing comfort.
- A diver-adjustable inhalation effort knob fine-tunes air delivery to suit changing depths, water conditions and personal tastes.
- Venturi-Initiated Vacuum Assist (VIVA) dive/pre-dive switch prevents free flows in cold water or when used as an octopus.
- Reversible hose attachment allows you to easily adjust hose routing for tech diving configurations.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.
- Weight: 275g.
- Airflow at 200bar: 1800 l/min .

Limited Lifetime Warranty

# MK25 EVO/A700

Part number	Description	Retail
12.770.040	INT 232	8,200

SCUBAPRO's flagship reg system is designed for divers who want the best. The MK25 EVO offers excellent resistance to freezing, superb inhalation sensitivity and instant delivery of air on demand. The A700 offers effortless inhalation and an ease of exhalation that is unmatched in a precision-handcrafted, full-metal package. Together they provide unparalleled breathing performance in all water temperatures.

## First Stage

- Air balanced flow-through piston in a chrome-plated brass body provides constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Patent pending XTIS (Extended thermal Insulating system) fully insulates the inner mechanism from the environment, improving cold-water resistance by 30% and delaying ice formation in extreme cold-water conditions without compromising breathing performance. Key insulation system components are visible in blue.
- New spring insulating coating, body insulating bushing, anti-freeze cap, bigger body and cap thread all work in concert with the XTIS to improve cold-water performance.
- Anti-freeze protection radically increases breathing reliability when diving in the most extreme water temperatures.
- Two opposing high pressure ports allow the first stage to be positioned either up or down.
- Five high-flow low pressure ports on a swivel turret maximize hose routing options.
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Available in a 232bar INT configuration.
- Weight: INT 232: 790 g.
- Airflow at 200bar: (l/min): >8500.
- Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort at varying depths and supply pressures.
- Rugged full-metal case, front cover and valve housing are able to withstand years of aggressive diving.
- Metal construction enables the use of a larger diaphragm inside a compact casing, increasing breathing sensitivity.
- User controls include a diver-adjustable inhalation effort knob and coaxial-flow Venturi-Initiated Vacuum Assist (VIVA) lever.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.
- Weight: 265g.
- Airflow at 200bar: 2000 l/min.

Limited Lifetime Warranty

# MK25 EVO/S620Ti

Part number	Description	Retail
12.620.000	INT 232	7,750

SCUBAPRO teams its high performance first stage with a brand new air-balanced second stage. The MK25 EVO offers excellent resistance to freezing, superb inhalation sensitivity and instant delivery of air on demand.

The new S620 Ti embraces the best features of SCUBAPRO's renowned S600 in an upgraded, state-of-the-art design. Smaller and lighter than the S600 but using the same-sized diaphragm, the S620 Ti delivers excellent performance; work of breathing has been reduced by 37% over the S600, providing effortless airflow under all dive conditions. The full titanium inlet tube is ultra-light, the larger water circulation holes in the front purge cover allow faster inhalation response and the new exhaust tee increases performance while directing bubbles out of the field of view. In all water temperatures, in all dive conditions, this new reg system is a winner.

## First Stage

- Air-balanced flow-through piston in a chrome plated brass body provides constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Patented XTIS (Extended Thermal Insulating system) thermally insulates the inner mechanism from the environment, improving cold-water resistance by 30% and delaying ice formation in extreme cold-water conditions without compromising breathing performance. Key insulation system components are visible in blue.
- Spring insulating coating, body insulating bushing, anti-freeze cap, bigger body and cap thread all work in concert with the XTIS to improve cold-water performance.
- Anti-freeze protection radically increases breathing reliability when diving in the most extreme water temperatures.
- Two opposing high pressure ports allow the first stage to be positioned either up or down.
- Four high-flow and one axial super high-flow low pressure ports on a swivel turret maximize hose routing options.
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Available in a 232bar INT and 300bar DIN configuration.
- Weight: INT 232: 790g; DIN 300: 572g.
- Airflow at 200bar: (l/min): >8500.
- Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort at varying depths and supply pressures.
- Rugged reinforced technopolymer case and front cover are able to withstand years of aggressive diving.
- Titanium barrel is rugged, anti-corrosion and lightweight for long-term reliability.
- Uses the S600's large diaphragm inside a compact casing for maximum breathing sensitivity.
- Diaphragm fits inside a more compact casing for maximum breathing sensitivity.
- User controls include an easy-grip diver-adjustable inhalation effort knob and Venturi-Initiated Vacuum Assist (VIVA) lever.
- New exhaust tee increases performance while directing bubbles out of the field of view.
- Compact Hi-Flow mouthpiece improves airflow as well as mouth comfort, fitting all mouth sizes, from largest to smallest.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Specific matching colors (blue, pink, yellow, purple, white and orange) on mouthpiece and hose protector are available as accessories.
- Weight: 179g.
- Airflow at 200bar: 1850 l/min.

Limited Lifetime Warranty

# MK25 EVO/S600

Part number	Description	Retail
12.971.050	INT 232	6,700
12.971.070	DIN 300	6,900

Combining SCUBAPRO's best-selling second stage and its top-performing first stage is a match made in diver heaven. The MK25 EVO offers excellent resistance to freezing, superb inhalation sensitivity and instant delivery of air on demand. The S600, with its rugged fiberglass casing and stainless steel front face and ring, provides a steady, effortless flow of air, regardless of depth. In all water temperatures, in the most demanding dive conditions, this reg system performs flawlessly.

## First Stage

- Air balanced flow-through piston in a chrome-plated brass body provides constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Patent pending XTIS (Extended thermal Insulating system) fully insulates the inner mechanism from the environment, improving cold-water resistance by 30% and delaying ice formation in extreme cold-water conditions without compromising breathing performance. Key insulation system components are visible in blue.
- New spring insulating coating, body insulating bushing, anti-freeze cap, bigger body and cap thread all work in concert with the XTIS to improve cold-water performance.
- Anti-freeze protection radically increases breathing reliability when diving in the most extreme water temperatures.
- Two opposing high pressure ports allow the first stage to be positioned either up or down.
- Five high-flow low pressure ports on a swivel turret maximize hose routing options.
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Available in a 232bar INT and 300bar DIN configuration.
- Weight: INT 232: 790g; DIN 300: 572g.
- Airflow at 200bar: (l/min): >8500.
- Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort when diving at varying depths and supply pressures.
- Metal valve housing is able to withstand years of aggressive diving.
- User controls include a diver-adjustable inhalation effort knob and Venturi-Initiated Vacuum Assist (VIVA) dive/pre-dive switch.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.
- Weight: 193g.
- Airflow at 200bar: 1850 l/min.
- Maximum low pressure: 14bar.
- Changeable purge covers allow you to make your regulator truly unique.

Limited Lifetime Warranty

# MK25 EVO/G260

Part number	Description	Retail
12.252.010	INT 232	6,250
12.252.030	DIN 300	6,450

Offering effortless air delivery and outstanding reliability, this is the go-to air delivery system for cold water or technical diving. There's no better example of solid first stage performance in all water temperatures than the MK25 EVO. Teamed with the venerable G260, this system can be relied upon to deliver top-of-the-line performance in the most extreme conditions.

## First Stage

- Air balanced flow-through piston in a chrome-plated brass body provides constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Patent pending XTIS (Extended thermal Insulating system) fully insulates the inner mechanism from the environment, improving cold-water resistance by 30% and delaying ice formation in extreme cold-water conditions without compromising breathing performance. Key insulation system components are visible in blue.
- New spring insulating coating, body insulating bushing, anti-freeze cap, bigger body and cap thread all work in concert with the XTIS to improve cold-water performance.
- Anti-freeze protection radically increases breathing reliability when diving in the most extreme water temperatures.
- Two opposing high pressure ports allow the first stage to be positioned either up or down.
- Five high-flow low pressure ports on a swivel turret maximize hose routing options.
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Available in a 232bar INT and 300bar DIN configuration.
- Weight: INT 232: 790g; DIN 300: 572g.
- Airflow at 200bar: (l/min): >8500.
- Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort at varying depths and supply pressures.
- Nylon fiberglass design features SCUBAPRO's biggest second stage casing and diaphragm for the ultimate in breathing sensitivity, regardless of position in the water.
- Anodized aluminum front cover ring.
- Metal components, including metal air barrel and metal valve inlet tube, increase resistance to freezing when diving in extreme conditions.
- High-flow exhaust valve reduces exhalation for better overall breathing comfort.
- A diver-adjustable inhalation effort knob fine-tunes air delivery to suit changing depths, water conditions and personal tastes.
- Venturi-Initiated Vacuum Assist (VIVA) dive/pre-dive switch prevents free flows in cold water or when used as an octopus.
- Reversible hose attachment allows you to easily adjust hose routing for tech diving configurations.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.
- Weight: 295g.
- Airflow at 200bar: 1800 l/min.

Limited Lifetime Warranty

# MK21/S560

Part number	Description	Retail
12.974.000	INT 232	4,700
12.974.300	DIN 300	4,800

This reg system is feature rich which offers SCUBAPRO reliability and is priced right. About 20% smaller than SCUBAPRO's flagship MK25 but benefitting from the same core technology, the MK21 features a modern, cutting-edge design whose size and weight make it an excellent choice for travel divers. The full-featured S560 second stage, built with a rugged reinforced techno-polymer case, is lightweight too, and also easy to use. Together they create the must-have reg system for recreational divers of all skill levels.

## First Stage

- Air-balanced flow-through piston provides constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Polished chrome-plated marine grade brass body is close to 20% smaller than the MK25, making it an easy travel companion.
- Unique thermal exchange design with external fins optimizes freezing resistance.
- Two high pressure ports, one on each side of the body, allow the first stage to be positioned either up or down.
- Standard "smart" hose routing cap offers four low pressure ports angled for more convenient hose routing (+/- 20°).
- Optional hose routing cap increases routing configurations with four angled low pressure ports (0°/30°) plus a fifth centralized high-flow low pressure port, ideal for technical diving.
- Redesigned yoke allows for easier mounting on a cylinder, and a redesigned cap protects internal components from water intrusion after the dive.
- Available in a 232bar INT and 300bar DIN configuration.
- Weight: INT 232: 744g; DIN 300:
- Airflow at 200bar: (l/min): >7500.
- Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort when diving at varying depths and supply pressures.
- Lightweight techno-polymer casing helps reduce jaw fatigue and improve diving comfort.
- Techno Polymer inlet tube contributes to reliability and long life.
- High flow exhaust valve reduces exhalation effort to lower overall work of breathing.
- User controls include a diver-adjustable inhalation effort knob and Venturi-Initiated Vacuum Assist (VIVA) dive/pre-dive switch.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.
- Weight: 172g.
- Airflow at 200bar: 1850 l/min
- Maximum low pressure: 14bar.

Limited Lifetime Warranty

# MK17 EVO/S620Ti

Part number	Description	Retail
12.623.000	INT 232	6,950
12.623.300	DIN 300	7,050

Teaming SCUBAPRO's best-selling second stage with its environmentally sealed first stage creates a reliable air delivery system for all diving conditions. The MK17 EVO is completely sealed off from the elements, ensuring trouble-free operation no matter how cold or murky the water gets. It is more compact yet delivers better breathing performance than its predecessor. Its improved internal design allows more airflow from the LP ports which have been reconfigured for better hose routing.

The new S620 Ti embraces the best features of SCUBAPRO's renowned S600 in an upgraded, state-of-the-art design. Smaller and lighter than the S600 but using the same-sized diaphragm, the S620 Ti delivers excellent performance; work of breathing has been reduced by 40% over the S600, providing effortless airflow under all dive conditions. The full titanium inlet tube is ultra-light, the large purge button improves water circulation, and the new exhaust tee increases performance while directing bubbles out of the field of view. In all water temperatures, in all dive conditions, this new reg system is a winner.

## First Stage

- Air balanced diaphragm delivers constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Environmentally sealed system prevents water and pollutants from fouling the inner mechanism.
- Dry ambient pressure chamber increases freezing resistance, ensuring consistent airflow in the coldest conditions.
- Improved airflow on all LP ports
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Available in either 232bar INT or 300bar DIN configurations. DIN version comes with a dual-compound wheel that features an ergo shape and soft grip on a rugged black nylon frame.
- Airflow at 200bar: 6900 l/min.  
Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort at varying depths and supply pressures.
- Rugged reinforced technopolymer case and front cover are able to withstand years of aggressive diving.
- Titanium barrel is rugged, anti-corrosion and lightweight for long-term reliability.
- Uses the S600's large diaphragm inside a compact casing for maximum breathing sensitivity.
- Metal case construction enables the use of a larger diaphragm inside a compact casing, increasing breathing sensitivity.
- User controls include an easy-grip diver-adjustable inhalation effort knob and Venturi-Initiated Vacuum Assist (VIVA) lever.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.
- Weight: 179g.
- Air flow at 200bar: 1850 l/min.

Limited Lifetime Warranty

# MK17 EVO/S560

Part number	Description	Retail
12.714.040	INT 232	4,900
12.714.060	DIN 300	5,000

An ideal breathing system for virtually any diving scenario, the balanced diaphragm MK17 EVO is completely sealed off from the elements, ensuring trouble-free operation no matter how cold or murky the water gets. It is more compact yet delivers better breathing performance than its predecessor. Its improved internal design allows more airflow from the LP ports which have been reconfigured for better hose routing. The full-featured air-balanced S560 second stage, built with a rugged nylon fiberglass case, is lightweight and easy to use. Together they create the must-have reg system for recreational divers of all skill levels.

## First Stage

- Air balanced diaphragm delivers constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Environmentally sealed system prevents water and pollutants from fouling the inner mechanism.
- Dry ambient pressure chamber increases freezing resistance, ensuring consistent airflow in the coldest conditions.
- Improved airflow on all LP ports
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Available in either 232bar INT or 300bar DIN configurations. DIN version comes with a dual-compound wheel that features an ergo shape and soft grip on a rugged black nylon frame.
- Airflow at 200bar: 6900 l/min.
- Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve smoothes out the inhalation effort when diving at varying depths and supply pressures.
- Lightweight techno-polymer casing helps reduce jaw fatigue and improve diving comfort.
- Techno Polymer inlet tube contributes to reliability and long life.
- High flow exhaust valve reduces exhalation effort to lower overall work of breathing.

- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.
- Weight: 172g.
- Airflow at 200bar: 1850 l/min
- Maximum low pressure: 14bar.

Limited Lifetime Warranty

# MK11/C370

Part number	Description	Retail
12.175.000	INT 232	4,050

The MK11/C370 is a great choice for dive-trekkers. The balanced diaphragm MK11, with its chrome-plated brass body specially designed to reduce size and weight, is an ideal travel companion. Its system features internal parts that are sealed from the elements. The new C370 brings forth the best features of its predecessor, the C350, while adding a balanced valve to its design. Its new exhaust tee, based on the S620 Ti's design, contributes to a 10% improvement in work of breathing over the C350. With this regulator system in your dive bag you'll be ready to hit the road.

## First Stage

- Air balanced diaphragm design delivers constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Marine grade brass body has sealed internal parts to prevent water and pollutants from fouling the inner mechanism while enhancing cold-water performance.
- Two high pressure, two low pressure and two high-flow ports maximize hose routing options.
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Available in either 232bar INT.
- Airflow at 200bar: 5500 l/min.
- Intermediate pressure (bar): 9.0-9.8.

## Second Stage

- Air-balanced valve for smooth inhalation effort at varying depths and supply pressures.
- Compact rugged fiberglass reinforced nylon casing and new exhaust tee take up little space in a dive bag.
- Stainless steel frame on the front cover adds the SCUBAPRO C-Series signature.
- The poppet and lever allows the design to maintain the same overall size as the C350.
- The exhaust tee is based on the S620 Ti's design and contributes to better work of breathing (a 10% improvement over the C350).
- User controls include a diver-adjustable inhalation effort knob and Venturi-Initiated Vacuum Assist (VIVA).
- Large purge button is easy to activate, even wearing thick gloves.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Compact Hi-Flow mouthpiece improves airflow as well as mouth comfort, fitting all mouth sizes, from smaller to largest.
- Weight: 171g.
- Airflow at 200bar: (l/min): 1600 bar

Limited Lifetime Warranty

# MK2 EVO/R195 NITROX

Part number	Description	Retail
12.920.060	DIN 200*	3,650

This go-anywhere regulator is now available as a dedicated nitrox delivery system. The MK2 EVO is the only classical downstream piston-style first stage with internal components specifically designed to resist freezing in extreme cold-water conditions. The R195 is easy to maintain, easy to use, and with its left or right hose routing capability, it's also the perfect system for use on stage or pony bottles. For simplicity and reliability – and in compliance with the most stringent safety norms – you can count on this nitrox reg system.

## First Stage

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, increasing freezing resistance by 50%. (Patent pending)
- Key insulation system components in blue.
- Airflow increased by 15%
- The larger piston provides better breathing performance and sensitivity, yet the overall body size, reduced by 3,5mm, results in a more compact first stage.
- Removable orifice allows easier maintenance and longer regulator life.
- Modern cosmetic design.

## Second Stage

- Classic Downstream Valve
- Adjustable VIVA
- Reversible Hose Attachment
- Larger Big Diaphragm
- Pre-tuned inhalation effort
- Super comfort High-flow mouthpiece
- Weight: 198g.
- Airflow at 200bar: 1550 l/min.

Limited Lifetime Warranty

# MK2 EVO/R095

Part number	Description	Retail
12.096.000	INT 232	2,700
12.096.300	DIN 300	2,800

## First Stage

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, increasing freezing resistance by 50%. (Patent pending)
- Key insulation system components in blue.
- Airflow increased by 15%
- The larger piston provides better breathing performance and sensitivity, yet the overall body size, reduced by 3,5mm, results in a more compact first stage.
- Removable orifice allows easier maintenance and longer regulator life.
- Modern cosmetic design.

## Second Stage

- Classic Downstream Valve
- Dealer-Adjustable VIVA
- Reversible LP Hose Attachment

Limited Lifetime Warranty

# MK25 EVO

Part number	Description	Retail
10.713.010	INT 232	3,300
10.713.030	DIN 300	3,450

## First Stage

- Air balanced flow-through piston in a chrome-plated brass body provides constant and effortless airflow unaffected by depth, tank pressure, or breathing rate.
- Patent pending XTIS (Extended thermal Insulating system) fully insulates the inner mechanism from the environment, improving cold-water resistance by 30% and delaying ice formation in extreme cold-water conditions without compromising breathing performance. Key insulation system components are visible in blue.
- New spring insulating coating, body insulating bushing, anti-freeze cap, bigger body and cap thread all work in concert with the XTIS to improve cold-water performance.
- Anti-freeze protection radical ly increases breathing reliability when diving in the most extreme water temperatures.
- Two opposing high pressure ports allow the first stage to be positioned either up or down.
- Five high-flow low pressure ports on a swivel turret maximize hose routing options.
- External intermediate pressure adjustment enables technicians to fine-tune performance quickly and easily.
- Available in a 232bar INT and 300bar DIN configuration.
- Weight: INT 232: 790g; DIN 300:572g.
- Airflow at 200bar: (l/min): >8500.
- Intermediate pressure (bar): 9.0-9.8.

Limited Lifetime Warranty

Part number	Description	Retail
10.721.000	INT 232	2,550
10.721.300	DIN 300	2,650
10.721.004	Kit, 5 port cap	520

## First Stage

- New compact sized piston-controlled first stage
- Mid-range piston 1st stage offering the best compromise for the right price and the right performance
- Unique thermal exchange design with external fins, optimizing freezing resistance
- Optional replaceable head for optimal positioning with 4 LP routing configurations (0°/30°). Ideal for Technical diving
- Standard head with 4 LP hose routing (+/- 20°) and 2 HP ports, one on each side of the body

Limited Lifetime Warranty

# MK17 EVO

Part number	Description	Retail
10.714.010	INT 232	2,750
10.714.030	DIN 300	2,850

The new MK17 EVO is completely sealed off from the elements, ensuring trouble-free operation no matter how cold or murky the water gets. It is more compact yet delivers better breathing performance than its predecessor. Its improved internal design allows more airflow from the LP ports which have been reconfigured for better hose routing.

## First Stage

- Air Balanced Diaphragm
- New machined body
- 2 HP ports
- 4 High flow ports
- New cover and caps
- New DIN wheel

Limited Lifetime Warranty

10.714.010

10.714.030

## A700

Part number	Description	Retail
11.700.000	Second Stage	4,900

### Second Stage

- Precision handcrafted construction and design masterpiece
- Polished chrome exterior for a lifetime of quality and timeless styling
- Compact dimensions for lightweight comfort
- Exceptional breathing performance at any depth
- The Work of Breathing (WOB) has been lowered to a value of 0.5 J/l
- New aligned VIVA system with co-axial 2-piece dive switch
- Full metal body and metal components assure maximum performance
- Metal provides the best thermal exchange imaginable in cold water

Limited Lifetime Warranty

## S620 Ti

Part number	Description	Retail
11.620.000	Second Stage	4,450

### Second Stage

- Titanium barrel
- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control
- New Mouth Piece

Limited Lifetime Warranty

## S600

Part number	Description	Retail
11.603.000	Second Stage	3,550

### Second Stage

- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control
- New Mouth Piece

Limited Lifetime Warranty

## G260 BT

Part number	Description	Retail
11.263.880	Second Stage	3,650

### Second Stage

- Premium technical 2. Stage
- G260 technology with a stealth, rugged, nylon fibreglass case and a dark anodized aluminum ring
- Stealth design knob and nut
- Airbalanced Flow Valve
- Diver's Adjustable Inhalation Effort
- Adjustable VIVA
- Super Comfort High Flow Mouthpiece

Limited Lifetime Warranty

## G260

Part number	Description	Retail
11.263.000	Second Stage	3,100

### Second Stage

- Metal components for excellent cold water resistance
- Reversible Hose Attachment
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA
- For technical diving very heavy duty casing

Limited Lifetime Warranty

# S560

Part number	Description	Retail
11.560.000	Second Stage	2,550

## Second Stage

- Lightweight techno-polymer barrel
- Air Balanced flow Valve
- Diver's Adjustable Inhalation Effort
- Adjustable VIVA
- High Flow Exhaust Valve
- Super comfort high-flow mouthpiece

Limited Lifetime Warranty

# C370

Part number	Description	Retail
11.370.000	Second Stage	2,400

## Second Stage

- Compact body and exhaust tee take up little space in a travel dive bag.
- Stainless steel frame on the front cover adds some style.
- Optimal flow design incorporates a special barrel and balanced poppet valve to produce maximum airflow under any diving conditions.
- User controls include a diver-adjustable inhalation effort knob and Venturi-Initiated Vacuum Assist (VIVA).
- Large purge button is easy to activate, even wearing thick gloves.
- Super-flow hose features an oversized bore that allows more air to flow on each inhalation.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.

Limited Lifetime Warranty

# R195

Part number	Description	Retail
11.331.000	Second Stage	1,650

## Second Stage

- Classic Downstream Valve
- Adjustable VIVA
- Reversible Hose Attachment
- Larger Big Diaphragm
- Pre-tuned inhalation effort
- Super comfort High-flow mouthpiece

Limited Lifetime Warranty

## R095

Part number	Description	Retail
11.330.600	Second Stage	1,350

### Second Stage

- New streamlined look and evident
- Scubapro branding with embossed purge button
- Classic Downstream valve
- Pre-tuned VIVA for uncomplicated use
- Reversible hose attachment

Limited Lifetime Warranty

## R195 OCTOPUS

Part number	Description	Retail
11.331. 200	Octopus	1,830

- Classic downstream valve comes with VIVA switch to control free flows.
- Large diaphragm allows for smooth and easy breathing.
- Yellow super-flow hose is 100cm and features an oversized bore to increase airflow.
- Reversible hose attachment makes it easy to use on deco tanks.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.

Limited Lifetime Warranty

## R095 OCTOPUS

Part number	Description	Retail
11.330.400	Octopus	1,430

- Classic downstream valve design for optimal breathing performance.
- Preset inhalation and Venturi-Initiated Vacuum Assist (VIVA) provides hassle-free air delivery.
- Reversible hose attachment makes it easy to use for sidemount, pony or deco tanks.
- Ultra-comfortable orthodontic mouthpiece is easy to grip yet doesn't inhibit airflow.
- Includes yellow purge cover and 100cm high-viz yellow hose.

Limited Lifetime Warranty

## G2 (GALILEO 2)

Part number	Description	Retail
05.080.100	G2 with Tank Transmitter	11,180
05.080.101	G2 Wrist Unit Only	8,500
06.205.315	USB Cable - G2	400

With all of its new features, its ease of use, its screen options, plus the ability to use as much or little of the technology as you want, the G2 is poised to become the favorite computer for divers of all skill levels, from beginner to tech diver. The G2 is designed go anywhere – open water to freediving to CCR to sidemount. And the G2 will grow with the new diver - wherever their passion for diving takes them.

- Same intuitive menu structure, simple 3-button control system, and diver-friendly functions that make the Galileo so easy to use. Enables a seamless transition from the Galileo to the G2. All accessories are reverse compatible as well.
- Full-Color TFT (Thin-Film Transistor) 2.2in/5.6cm Dot matrix display screen (320x240p). Produces vibrant colors for maximum readability to quickly direct your attention to what you need to know.
- TFT screens use less energy. More efficient than other screen types to help extend battery life.
- See as much or as little as you like. Choice of screen display configurations. Customize your data presentation with Light, Classic, Full or Graphical screen options to suit your individual diving style.
- Customize menu listings. Use as much or as little of the G2 technology as you need – your choice.
- Multiple language choices. Select from more than 19 languages for receiving dive data.
- Predictive Multi-Gas ZHL-16 ADT MB algorithm. Advanced Uwatec algorithm programs up to 8 nitrox/trimix mixes to handle any recreational or technical diving scenario.
- Integrated heart rate monitor. Measures heartbeat and skin temperature and incorporates both into the workload calculations. Integration with the HRM is exclusive to SCUBAPRO.
- Heart rate monitor also lets you visually track your heart rate “real time” to ensure you stay in your individual target zone to maximize your fun and safety at depth.
- Hoseless air integration. Monitors tank pressure plus provides true remaining bottom time (RBT) and allows air consumption to be factored into the decompression calculation. Provides support for up to 9 transmitters when all features are activated.
- Improved, full tilt digital compass. The best available. Includes half-compass rose and bearing memory.
- Rechargeable battery. Provides up to 50 hours of dive time per charge. Battery only service by dealer.
- Huge 485MB memory. Stores pictures, tables, tissue loading status, and 1,000 hours of dive profiles.
- USB cable or Bluetooth Low Energy interface. Easily download dive data wirelessly to your phone or handheld device. Download dive data to a PC/Mac using LogTRAK software.

LIGHT Screen  
without warning

### PLUS:

- Fiberglass-reinforced thermoplastic slim-line casing. Ultra-durable & UV resistant.
- Curved ergonomic low-profile shape. Sits comfortably on the arm and resists rotating (integrated bungee mounts are provided for tech divers). Can also be used on a retractor.
- Rugged TR 55 transparent thermoplastic lens protects the full color dot matrix TFT display.
- Features a backlight to enhance low-light readability.
- Sleek, Swiss design. The best elements of the Galileo in an upscale design.
- Stainless steel control buttons (3).
- Accessible, intuitive, easy to use even when wearing gloves.
- Multiple dive modes. Scuba, Freediving, Gauge, CCR and Sidemount for total in-water versatility.
- (Freediving, Trimix, CCR and Sidemount modes are disabled from the factory. Activation is easy – no downloading or upgrading is required.)
- Special freediving logbook. Stores repetitive dives sequentially under the same freediving session.
- Maximum operating depth. 394ft/120m for reliable data computing regardless of diving situation.

## G2 (GALILEO) CONSOLE

Part number	Description	Retail
05.081.111	G2 Console	10,500

For divers who prefer a console-style dive computer, the G2 Console joins the Galileo family, offering yet another option for handling important dive data. Featuring a cell phone-style portrait-shaped screen, the G2 Console is easy to use, easy to read, and offers a compass with two screen styles. The rugged casing boot protects against bumps and includes hose protection to safeguard the quick disconnect fitting. Data downloading and analysis is easy with full Android/iPhone/PC/Mac compatibility. The G2 Console is designed to go anywhere, and will grow with the new diver – wherever their passion for diving takes them.

- Cell phone-style screen is familiar and very easy to read at depth.
- Air integrated system includes a quick-disconnect fitting that enables you to separate the dive computer from the HP hose for easy post-dive data downloading, traveling, and safe storage.
- Ultra-durable casing boot protects against bumps and includes hose protection to safeguard the quick-disconnect fitting.
- Dive modes: SCUBA, Gauge, and Trimix. (Trimix mode is disabled from the factory. Activation is easy – no down-loading or upgrading is required.)

### PLUS:

- Ultra-durable casing boot protects against bumps and includes hose protection to safeguard the quick disconnect fitting.
- Scuba and trimix modes: (the trimix mode is disabled from the factory. Activation is easy – no downloading or upgrading is required.)

## LED & SMART

Part number	Description	Retail
05.055.030	Transmitter Smart + LED / Galileo	3,150

Enjoy the convenience of air integration without the hassle of a dangling hose. This low-profile Smart transmitter works with SCUBAPRO's most advanced dive computers. It screws into a high pressure port on your first stage and relays tank pressure and true remaining bottom time (RBT) to the computer screen. The latest version features a built-in LED that gives you an estimate of pressure when the first stage is attached to a tank. This lets you know if the tank has gas without needing to activate the computer.

- Easy to use, you only need to pair it to your computer once—the first time you use it.
- Coded transmission technology prevents interference between different dive computers.
- Compatible with Galileo Sol, Galileo Luna and M2 personal dive computers.

# GALILEO SOL

Part number	Description	Retail
05.077.200	Incl HR and 1 Tank Transmitter	7,200

The ultimate dive computer, Sol contains all core SCUBAPRO features in addition to all technology exclusive to the Galileo series. This state-of-the-art computer accounts for the effect of increased workload on human physiology with features like the integrated heart rate monitor, which tailors decompression calculations to your dive.

# GALILEO LUNA

Part number	Description	Retail
05.076.200	Galileo Luna HF	7,200
05.076.201	Wrist Unit Only	5,550

The LUNA comes with a choice of display screens, an intuitive menu system and the best electronic compass around. In fact, it offers all of the core SCUBAPRO technology and features you'll find on the Galileo SOL except for the Predictive Multi-Gas feature and the Heart Rate Monitor. If you ever want to upgrade, these two features are available as optional purchases and can be added quickly and easily.

# MANTIS 2 (M2)

Part number	Description	Retail
05.063.100	Mantis 2 (M2) with Transmitter and HRM	7,575
05.063.101	Mantis 2 (M2) only - No Transmitter / HRM	5,025
05.055.030	LED Transmitter	3,150
05.060.002	SCUBAPRO HRM Belt	1,200

The M2 is a dive computer like no other. Designed with SCUBAPRO's Human Factor Diving™ approach to product design, the M2 offers everything you expect from the leader in diving equipment. It is loaded with topside features and underwater functions, including air integration and electronic navigation, and most importantly, incorporates cutting-edge biometrics that enable you to live your life in dive mode.

- Human Factor Diving™ is SCUBAPRO's revolutionary new approach to product development that combines Human Factors Engineering, biometrics and wearable technology to create cutting-edge high-tech self-tracking devices that make diving safer and more fun.
- Targeted to recreational and technical divers as well as CCR divers and freedivers.
- Predictive Multi-Gas ZHL8 ADT MB algorithm accommodates three gas mixes (21-100% O2).
- PDIS (Profile Dependent Intermediate Stops) calculates an intermediate stop based on N2 loading, current and previous dives and breathing mixes for safer diving.
- Microbubble levels let you adjust the level of conservatism in the algorithm to match your experience level, age and physical conditioning.
- Smart technology wireless air integration handles multiple transmitters.
- Heart rate monitor records heartbeat and skin temperature (with SCUBAPRO HRM Belt only) that can be factored into the decompression calculation along with workload.
- Digital tilt-compensated onboard compass allows for easy navigation.
- Casing is built from the highest marine grade 316L stainless steel with a two-toned brushed finish that protects and looks great.
- Control buttons are assembled in modules using triple O-rings to maintain the casing's watertight integrity.
- Great for freediving.

## PLUS:

- Programs three gas mixes (21-100% O2).
- Four Dive modes-Scuba, Gauge, Freediving and CCR.
- Swim mode.
- Sport mode.
- Full topside time-keeping functions.
- Chronograph with lap memory for running.
- Fixed PPO2 CCR algorithm.
- Visually pleasing segmented LCD display.
- Protective mineral glass.
- Easy-to-read characters and graphics.
- Intuitive menu.
- Simple circular navigation system.
- **Scuba:** Four second sampling rate/50 hours of enhanced logbook in diving mode.
- **Freediving:** One second sampling rate/10 hours of enhanced logbook in apnea mode.
- Maximum operating depth: 394ft/120m.
- CR2450 user replaceable battery rated two years/300 dives.
- PC and Mac compatible using LogTRAK.

# MANTIS 1 (M1)

Part number	Description	Retail
05.062.100	Mantis 1 Silver/Black	3,788
05.062.200	Mantis 1 All Black	4,238

A precision blend of sophisticated computer and beautiful timepiece, the M1 is very similar to the M2 in form and function. It's the dive computer for divers who want the Smart technology offered by SCUBAPRO's ground-breaking Human Factors engineering, but who don't need air integration or an on-board digital compass.

- Targeted to recreational and technical divers as well as CCR divers and freedivers.
- Predictive Multi-Gas ZHL8 ADT MB algorithm accommodates three gases (21-100% O<sub>2</sub>).
- PDIS (Profile Dependent Intermediate Stops) calculates an intermediate stop based on N<sub>2</sub> loading, current and previous dives and breathing mixes for safer diving.
- Microbubble levels let you adjust the level of conservatism in the algorithm to match your experience level, age and physical conditioning.
- Optional heart rate monitor records heartbeat and skin temperature (with SCUBAPRO HRM Belt only) that can be factored into the decompression calculation along with workload.
- Casing is built from the highest marine grade 316L stainless steel with a two-toned brushed finish that both protects and looks great.
- Magnetic control buttons eliminate the need for holes, maintaining the casing's watertight integrity and maximizing mechanical reliability.
- Great for freediving.

## PLUS:

- Four Dive modes-Scuba, Gauge, Freediving and CCR.
- Swim mode.
- Full topside time-keeping functions.
- Chronograph with lap memory for running.
- Fixed PPO<sub>2</sub> CCR algorithm.
- Segmented LCD display.
- Protective mineral glass.
- Easy-to-read characters and graphics.
- Enhanced logbook for Freediving.
- Maximum operating depth: 394ft/120m.
- CR2032 user replaceable battery rated two years/300 dives.
- PC and Mac compatible using LogTRAK with optional cradle.
- Android LogTRAK app is available.

05.061.410	Full Black	3,480
05.061.420	Deep Blue	3,480

SCUBAPRO's "sporty" wristwatch-style dive computer, the Chromis is always ready for action, both in and out of the water. Offering all of SCUBAPRO's core features except Predictive Multi-Gas (PMG), the Chromis offers full timekeeping functions, a patented stroke counter for surface swimming and a full-featured deco computer for diving.

- ZHL8 ADT MB algorithm accommodates one nitrox mix from 21% to 100% O<sub>2</sub>.
- PDIS (Profile Dependent Intermediate Stops) calculates an intermediate stop based on N<sub>2</sub> loading, current and previous dives and breathing mixes for safer diving.
- Microbubble levels let you adjust the level of conservatism in the algorithm to match your experience level, age and physical conditioning.
- Casing features an engraved 316L stainless steel front ring and back plate.
- Four buttons allow for easy menu navigation.
- Extra-sharp alphanumeric characters are inspired by Samurai katanas.
- Continuously updated average depth display in Gauge mode can be reset at any time.
- Zigzag strap design compensates for dive suit compression to maintain a secure fit at depth.
- Deep blue option to match Deep Blue regulator.

- All-black option to match Carbon Fiber regulator.
- Also great for freediving.

## PLUS:

- Three Dive modes: Scuba, Gauge and Freediving.
- Swim mode includes surface stroke counter.
- Intuitive menu system.
- Large, easy-to-read display.
- Maximum operating depth: 120m.
- Full topside time-keeping functions.
- Stopwatch in Scuba and Gauge modes.
- Optional USB connection with cradle.
- Large capacity CR2430 battery.
- Strap extension is included.

## INFRARED INTERFACE (IRDA)

Part number	Description	Retail
05.050.001	USB Smart IrDA Dongle	780

This handy accessory provides an Infrared connectivity solution for PCs that are not equipped with built-in infrared ports that allow for the transfer of your dive data from dive computer to SmartTRAK/LogTRAK. Simply plug it into a USB port for quick and easy downloading.

### Provides data transfer capability for:

- Aladin One, Aladin Sport, Aladin Prime, Aladin TEC, Aladin TEC 2G, Aladin 2G, Aladin TEC 3G.
- Galileo SOL, Galileo TERRA, Galileo LUNA.
- Smart Pro, Smart COM, Smart TEC, Smart Z.

### Systems Compatibility:

- Windows platforms (98, 2000, XP, VISTA, Windows 7). Drivers supplied with device.
- Windows 8. Drivers can be download from SCUBAPRO website.
- MacOS X.
- Windows 10 Drivers available soon.

# ALADIN H MATRIX W QR

Part number	Description	Retail
05.047.110	Aladin H Matrix with QR - LCD, Bluetooth and d.compass	3,900

With its compact size and intuitive data display, the new Aladin H is a sharp-looking and full-featured dive computer targeted to avid recreational divers looking for a convenient air-integrated dive computer. Featuring a metallic faceplate and easy-to-read segmented display on top and middle rows, and a matrix display on the bottom row, the Aladin H's full air integration eliminates the need to carry a separate submersible pressure gauge. With the on-board digital compass and you have an ultra-compact, full-function, hose-attached dive computer.

- Predictive Multi-Gas ZHL16 ADT MB algorithm accommodates three gases (21-100% O<sub>2</sub>).
- Fully air-integrated, the algorithm calculates remaining bottom time (RBT) and estimates workload based on breathing rate.
- PDIS (Profile Dependent Intermediate Stops) calculates an intermediate stop based on N<sub>2</sub> loading, current and previous dives and breathing mixes for safer diving.
- Microbubble levels let you adjust the level of conservatism in the algorithm to match your experience level, age and physical conditioning.
- Features a protector boot covering the metal connection between HP hose and dive computer's HP sensor.

# ALADIN SPORT (MATRIX)

Part number	Description	Retail
05.046.110	Aladin Sport Matrix	2,780

Featuring a metallic silver faceplate and easy-to-read display, the new SCUBAPRO Aladin SPORT (Matrix) is targeted to divers who want multi-gas functions as well as to recreational divers who appreciate a dive computer with the kind of features that enable them to evolve in their sport. The computer screen features an easy-to-read segmented display on the top and middle rows, plus an eye pleasing matrix display on the bottom row where you'll also find an easy-to-use on board digital compass. Available as a wrist mount.

- Predictive Multi-Gas ZHL16 ADT MB algorithm accommodates three gases (21-100% O<sub>2</sub>).
- PDIS (Profile Dependent Intermediate Stops) calculates an intermediate stop based on N<sub>2</sub> loading, current and previous dives and breathing mixes for safer diving.
- Microbubble levels let you adjust the level of conservatism in the algorithm to match your experience level, age and physical conditioning.

## PLUS:

- Three Dive modes: Scuba, Freediving and Gauge.
- Maximum operating depth: 120m.
- Altimeter.
- Saltwater and freshwater settings.
- Digital compass, displayed on matrix bottom row.
- Active back light.
- Visual and audible alarms.
- Full watch functions.
- Adjustable ppO<sub>2</sub> from 1.0 and 1.6, and it can be set to off.
- Bookmark function.
- Lens protection cap.
- CR2450 user-replaceable battery rated for two years/300 dives.
- Dive logs can be stored and analyzed via new **Bluetooth 4.0 technology**.

- Using the Bluetooth Low Energy (Bluetooth 4.0) feature divers can download their dives to iOS and Android devices that handle the Bluetooth Low Energy technology.
- For PCs and Macs that are not equipped with built-in Bluetooth Low Energy technology, the end user will have to buy a Bluetooth Low Energy USB dongle which is available on the market.
- Uwatec has tested and recommends the use of the following dongle: Bluegiga BLED112.
- Up to three nitrox mix (0 to 100%) 3 gas computer.

# ALADIN ONE MATRIX

Part number	Description	Retail
05.045.110	Aladin One Matrix with wristband	2,180
05.045.230	Aladin One Matrix + Console 2 +PG Gauge	2,775

IDEAL FOR DIVING SCHOOLS AND BASES!

## PLUS:

- Nitrox compatible 21-50% in 1% increments
- Nitrox Reset function is ideal for dive rentals
- 12 and 24 hour mode
- Auto or manual Safety stop with timer (3 minutes)
- Full watch functions (UTC, alarm)
- Adjustable ppO2 between 1.0 and 1.6bar
- Maximum operating depth: 120m
- Back light
- **Bigger font digits over last model**
- **New easy menus**
- Menu names shown in matrix screen
- **ZH16 ADT algorithm**
- Visual and audible alarms
- **Full reset between dives for hire computer**
- **Safety Stop timer – add Auto or manual @ 5 meters**
- Dive logs can be stored and analyzed via new **Bluetooth 4.0 technology**
- CR2450 user replaceable battery rated for two years/300 dives
- **Full dive planer including decompression dives**
- Wrist boot can be fitted for bungee straps

# DIGITAL 330M

Part number	Description	Retail
05.014.110	Wrist Mount Metre	1,760
05.014.010	Capsule only	1,620

Although targeted primarily to technical divers, the Digital 330M is an ideal data delivery system for beginning divers, and a useful backup instrument for any diver. Whatever your skill level, the Digital 330M can be counted on to provide outstanding electronic accuracy in all diving conditions.

- Incorporating state-of-the-art technology, a bevy of information is provided in a compact information center.
- Data includes actual and maximum depth, ascent speed, dive time in minutes and temperature.
- Auto on/off feature means it's always ready to dive after a quick self-test.
- Variable ascent rates are displayed in a percentage and with a fast ascent warning.
- Depth-rated to 330m to suit all technical deep-diving scenarios.
- Surface interval is displayed for 24 hours for safety and convenience.
- Logbook provides data for the last nine dives to allow for post-dive review and analysis.
- Provides automatic altitude compensation when changing dive locations.

05.014.110

## 3-GAUGE IN-LINE CONSOLE

(Metal Compact PG, Std DG, Compass FS-2)

Part number	Description	Retail
05.011.753	Metric/Bar	2,900

This sleek, three-gauge console combines a SCUBAPRO metal pressure gauge, depth gauge and FS-2 compass, creating an easy-to-use, at-a-glance information center.

- Compact pressure gauge (0-400bar) with brass case.
- Oil-filled analog depth gauge with linear Bourdon tube design.
- 35-degree tilt, oil-filled compass.
- Available in imperial and metric.

## 3-GAUGE IN-LINE CONSOLE

(Plastic Compact PG, Std DG, FS-1.5)

Part number	Description	Retail
05.011.714	Metric/Bar, Compass	2,500

Three-gauge console with compact, plastic-case pressure gauge, easy-to-read depth gauge and FS-1.5 compass. Perfect for the diver who values convenience, accuracy, and style.

- Compact pressure gauge (0-400bar).
- 26-degree tilt, oil-filled compass.
- Oil-filled analog depth gauge with linear Bourdon tube design.

## 2-GAUGE CONSOLE, SP METAL PG

(Metal Compact PG, Compact DG)

Part number	Description	Retail
05.023.210	Metal PG Metric/Bar, uDGm	1,980

Two-gauge console including a compact brass-case pressure gauge and a compact oil-filled analog depth gauge with linear Bourdon tube design.

## 2-GAUGE U-LINE CONSOLE

(Compact Plastic PG, Compact DG)

Part number	Description	Retail
05.012.210	Pressure/Bar and Depth/Meter Gauge (New)	1,700

Two-gauge compact console includes a compact plastic-case pressure gauge and a compact oil-filled analog depth gauge with linear Bourdon tube design. C1 compass can be attached at the bottom of the console boot.

## CONSOLE MAKO

Part number	Description	Retail
05.022.213P	CONSOLE Mako FB - Scubapro PG/FS-2 - Bar	2,180

- Compact console combines with FS-2 compass and pressure gauge

## COMPACT PRESSURE GAUGE

Part number	Description	Retail
05.023.112	Compact Scubapro PG COMPLETE 0° BAR	1,180
05.023.122	Compact Scubapro PG COMPLETE 0° PSI	1,180
05.022.012	Compact Scubapro PG Capsule 0° BAR	680
05.022.022	Compact Scubapro PG Capsule 0° PSI	680

- Compact Pressure Gauge 0-400 bars with brass case
- Red zone between 50 and 0 bar and 10 bar increments

05.023.112

## STANDARD PRESSURE GAUGE

Part number	Description	Retail
05.011.112	Standard PG w Hose/Rubber cover 0 <sup>0</sup> Bar	1,080

## PRESSURE GAUGE, U-LINE (Compact Plastic-Case PG)

Part number	Description	Retail
05.012.112	U-Line Pressure Gauge, Metric/Bar	960
05.012.122	U-Line Pressure Gauge, Imperial/ Psi	960
05.012.012	U-Line Pressure Gauge Capsule w Swivel Metric/Bar	630

05.012.112

## DEPTH GAUGE

Part number	Description	Retail
05.011.111	Metric, to 60m	1,000
05.011.011	DG Standard Capsule with Temp (°C)	860
05.012.011	U-line depth gauge capsule, Metric/Bar	760
05.012.021	U-line depth gauge capsule, Imperial/Psi	760

This handy depth gauge features a fluorescent scale, a built-in temperature gauge and fits nicely in a streamlined and comfortable wrist strap.

- Oil-filled gauge housed in an impact-resistant nylon case.
- 60m linear scale features maximum depth indicator for the easy logging of maximum depth.
- Bourdon tube design provides precise readings at all depths.

05.011.111

## FS-2 COMPASS

Part number	Description	Retail
05.017.101	FS-2, Universal, w/wrist mount	930
05.017.111	FS-2, Universal, w/retractor mount	820
05.017.121	FS-2, Universal, w/retractor mount and retractor	1,200
05.017.001	FS-2 Capsule only	740
06.203.115	Retractor mount for compass FS-1/FS-2	180
06.203.170	Retractor for compass FS-1/FS-2	460
06.203.523	Galileo Retractor Clip Set	70
06.204.342	WRIST Mount w Strap FOR COMPASS FS-1/FS-2	260
06.204.469	WRIST Mount w Strap FOR COMPASS FS-1/FS-1.5 /FS-2	260

The FS-2 compass provides a unique tilt angle of up to 35 degrees, making it easier to read and operate in almost any position. With a floating magnet separate from the compass rose, the FS-2 has greater operating freedom than conventional compasses. This means you can use the same compass for both Northern and Southern hemispheres, making it the perfect navigation instrument for traveling divers.

- Scratch-resistant and durable oil-filled polycarbonate case.
- Highly luminous dial for easy reference in low light conditions.
- Side view window for easy and accurate navigation.
- Available in a wrist model or capsule.

05.017.121

05.017.101

## FS-1.5 COMPASS

Part number	Description	Retail
05.018.101	FS-1.5 N, w/wrist mount	700
05.018.001	FS-1.5 N, Capsule	570

A compact and durable instrument for precise underwater navigation. Mounted in a pressure-resistant oil-filled polycarbonate housing, this compass is easy to read and easy to use. Calibrated to the Northern hemisphere.

05.018.101

## C1 COMPASS

Part number	Description	Retail
05.015.000	C1 compass w/strap for console mount	380
05.015.100	C1 compass w/wrist strap mount	390

- Quick-connect convenience
- Four main directions clearly indicated: N/E/S/W
- Very fast response
- Very compact compass for general orientation

## EMPTY BOOTS

# HYDROS PRO

## THE ABILITY TO CHANGE ANYTHING, CHANGES EVERYTHING.

The HYDROS PRO is a true breakthrough in dive comfort and convenience. The moldable Monprene®, adjustable fit and multi-attachment points combine to make this the most customizable and comfortable BC ever. Winner of the 2016 Red Dot award for product design, the HYDROS PRO is an incredible feat of SCUBAPRO engineering, built for anyone who loves to dive.

Interchangeable straps, a packable design and an included backpack with room for your entire dive kit make the HYDROS PRO perfect for any destination and any dive.

- Ultra Durable: Patented Injection Molded Monprene® Gel Harness is extremely resistant to UV, chemicals and abrasion. The fabric-free harness uses no velcro or zippers.
- Instant Dry: Ideal for travel due to less water retention and lower post-dive weight.
- “BC-4-Life” Modular Design: Customizable to add/remove weight systems, straps and pouches. Extended lifespan due to simplified repairs. Virtually every component, including buckles, can be replaced without stitching.
- 3D Ergonomic Design: Conforms to your body shape for maximum comfort.
- Lightweight: Advanced materials keep weight low.
- Neutrally Buoyant: Near-Zero inherent buoyancy requires less lead, resulting in better buoyancy control and much more enjoyable diving.
- Body Grip Gel: Prevents BC from shifting and riding up.
- Torso Flex Zone: Auto-adjusts to your torso length for excellent comfort and freedom of movement.
- Articulated Shoulder Straps: Allow straps to adjust to your body shape to achieve a snug fit.
- Cross-Flow Channel: Unrestricted internal airflow reduces air trapping for enhanced maneuverability and easy deflation at any angle.
- 2-Stage Inflation: Tri-bungee system controls air distribution to maintain a compact shape under water and high lift capacity at the surface.
- Dorsal Weight-Wing: Anti-abrasion and instant dry. Optimal “Outboard” trim pockets.
- Buckle Weight System: Simple, safe and reliable quick-release buckles offer a fixed location for easy one-hand operation.
- Multi-Mount Accessory Matrix: Multiple D-Rings and mounting points for a knife + light + SMB + hoses + crotch strap and much more.
- Smart-Pack Design: Folding shoulder and waist straps pack into the wing, creating an unbelievably compact package for easy transport and storage.
- With BPI

# X-BLACK

Part Number	Size	Retail
21.719.200	S	8,150
21.719.300	M	8,150
21.719.400	L	8,150
21.719.500	XL	8,150

Detail

Detail

The front-adjustable X-Black features SCUBAPRO's exclusive AirFlex system (highlighted by the red bungees threaded throughout the BCD) that simplifies buoyancy control and guarantees an extremely stable ride at depth. Loaded with convenience and performance features, the X-Black is also one of the most comfortable BCDs available, thanks to its ergonomic cut, and it offers a huge lift capacity.

- Constructed of a combination of durable 1000 denier and 420 denier nylon for long-term wear.
- Adjustable cummerbund compensates for suit compression, ensuring a snug fit at varying depths.
- Non-rotating quick-release shoulder buckles optimize strap routing to maximize fit.
- Airnet backpack is water-draining and comfortable during long dives.
- AirFlex system with special bladder delivers enormous buoyant lift capacity.
- Super Cinch tank buckle system locks the tank in solid for maximum stability at depth.
- Quick-release integrated weight pouches ditch quickly and easily and secure with buckles.
- Two rear trim pouches allow you to achieve a well-balanced swimming position.
- Built-in grommets provide attachment points for a knife.
- Two large zippered pockets and a zippered cummerbund pouch provide lots of cargo-carrying capability.
- Eight aluminum D-rings, four large and pre-bent, provide convenient clip-on points for additional gear.
- Available with an AIR2.

# X-FORCE

21.717.600	2XL	7,030

Detail

Detail

X-FORCE is more than a powerhouse of features, making it perfect for passionate and advance recreational divers. New, pre-formed wrap-around bladder provides higher buoyancy with increased volume in lower back. Say goodbye to squeezing with its superior fit and weight distribution, for unbelievable comfort.

- New quick-release weight buckle retaining system allows one-hand operation and easy to find for optimal safety.
- Additional back pockets offer trim counterweight storage.
- New backpack and soft neck protection with Air-Net padding for increased comfort and protection.
- Shoulder pads and straps covered in anti-slip material.
- New graphics include embossed SCUBAPRO logo and 'Professional Diver' silver logo, along with reflective piping on sides and back.
- Constructed of high-resistance Cordura 500 exterior and Nylon 420 interior, guaranteeing durability.
- Cordura® Lock protects against the elements.
- Octopus holder on both sides, keeps gear neat and accessible.
- Available with Balanced Power Inflator (BPI) or optional AIR2.

22.137.X00

- Special tailor made for Asian women
- Stable BC with enhanced comfort and sense of fitting.
- You can choose the color of Blue or White.
- With BPI. Optional Air 2 version available on request.

## GLIDE BLACK/ GREY

Part number	SIZE	Retail
22.285.120	XS	5,400
22.285.220	S	5,400
22.285.320	M	5,400
22.285.420	L	5,400
22.285.520	XL	5,400

- Front adjustable BC
- New "Y-FIT" shoulders layout
- 420 Nylon bladder fabric
- New fittings (including dump valves, elbow, corrugated hose and BPI)
- Front weight pockets integration
- Weight pocket with 40mm flat buckle
- Trim weight pockets
- Zippered cargo pockets
- Super cinch tank buckle
- Metal grommets for knife attachment
- Stainless steel D-rings
- Lift Capacity (kgs) - XS/10, S/12, M/15, L/16, XL/18

### Y-FIT shoulder concept

- Shoulders get a Y shape to fit the body better
- A specific stainless steel triangular ring manages the forces in the Y centre
- Shoulder strap attached to the backpack
- Design inspired by motorcycle backpacks
- Stable, safe, easy fit

# EQUATOR

Part number	SIZE	Retail
21.725.100	XS	5,100
21.725.200	S	5,100
21.725.300	M	5,100
21.725.400	L	5,100
21.725.500	XL	5,100

With the Equator you can enjoy all the comfort and security of a full-featured front-adjustable BC, along with the light weight and packing advantages of a travel BC. Comfortable and stable at depth, for divers who do lots of local diving as well as travel diving, but prefer to own just one BC, there's no better choice than the Equator.

- 420 denier nylon construction ensures a long and active dive life.
- Wraparound air bladder provides a secure, comfortable ride at depth and on the surface.
- Double band system locks the tank in solid for maximum stability at depth.
- Octopus pockets on each side offer options for carrying a backup second stage.
- Easy-to fold lightweight Airnet backpack is comfortable and makes dive travel so much easier.
- Rotating quick-release shoulder buckles allow you to route your shoulder straps to maximize fit.
- Quick-release integrated weight pouches ditch easily and secure with low-profile squeeze buckles.
- Two large zippered pockets fitted with knife attachment grommets provide lots of cargo-carrying capability.
- Four large pre-bent stainless steel D-rings, along with two smaller stainless D-rings, provide convenient clip-on points for additional gear.

# GO

Part number	Size	Retail
21.720.100	XS	5,300
21.720.200	S	5,300
21.720.300	M	5,300
21.720.400	L	5,300
21.720.500	XL	5,300

Lightweight, easy to pack and extremely comfortable, the Go is a true travel BC. At the same time, it offers all the performance and convenience features you'd expect from a full-featured general-purpose BC. It is well-padded and comfortable yet carries virtually no inherent buoyancy. Generous buoyant lift enables it to be used for temperate water diving as well.

- Constructed of 210 denier nylon covered with polyurethane for lightweight durability.
- Wraparound air bladder provides a secure, comfortable ride at depth and on the surface.
- Coated mesh cummerbund is lightweight and dries quickly and easily.
- Double-band system locks the tank in for maximum stability at depth.
- Rotating quick-release shoulder buckles allow you to optimize the routing of your shoulder straps to maximize fit.
- Airnet padded backpack is water-draining, easy to fold, and enhances comfort during long dives.
- Quick-release integrated weight pouches ditch easily and secure with low-profile squeeze buckles.
- Optional trim weight pockets for better trim in the water.
- Two large low profile zippered pockets fitted with stainless steel knife attachment grommets provide lots of cargo-carrying capability.
- Six aluminum D-rings, two large and pre-bent, provide convenient clip-on points for additional gear.
- The BC folds easy and stows in its own bag for travel or storage.

## EQUALIZER

Part number	SIZE	Retail
21.729.100	XS	4,700
21.729.200	S	4,700
21.729.300	M	4,700
21.729.400	L	4,700
21.729.500	XL	4,700

The Equalizer is a front-adjustable BC that brings together all the best features you could ever want in a recreational diving BC. Its high performance wraparound bladder is made of 420 denier nylon so it's durable and lightweight and extremely comfortable. Stability is excellent thanks to the full-sized backpack and tank strap system. The flat-buckle quick-release integrated weight system loads easy and ditches even easier, and the valve system represents the ultimate in reliability and performance. Add big Velcro-closure pockets and four stainless D-rings for carrying accessories, plus two octopus pockets for storing a backup reg, and you have a BC that can't be beat.

- 420 denier nylon construction dries quickly and ensures a long and active dive life.
- Wraparound air bladder provides a secure, comfortable ride at depth and on the surface.
- New self-locking elbow ring on main left-shoulder valve prevents accidental loosening.
- Full size backpack delivers maximum stability.
- Octopus pockets on each side offer options for carrying a backup second stage.
- Quick-release integrated weight pouches ditch easily and secure with low-profile squeeze buckles.
- Two large Velcro pockets offer lots of cargo-carrying capability.
- Stainless steel grommets allow for convenient knife attachment.
- Four stainless steel D-rings provide multiple clip-on points for carrying additional gear.

- Standard Nylon Band
- Fabric: C 1000D/N 420 D
- 2 stainless steel D-Rings
- Padded Back Pack
- 2 Velcro Pockets
- Octopus Holder

# REBEL KIDS

Part Number	Size	Retail
21.222.010	One Size Fits All	4,300

Specially designed for smaller divers, the front-adjustable Rebel is built tough to last. Its wraparound bladder provides a stable and secure ride at depth, and the padded backpack and cummerbund offer a lot of additional comfort. Three dump valves and optional weight integration add to its ease of use. The one-size-fits-all is aided by a choice of cummerbunds to help dial in a snug fit.

- Constructed of 420 denier nylon for lightweight durability.
- Integrated optional gravity release weight pouches eliminate the need for a weight belt.
- Padded backpack provides extra cushion when strapped to a tank.
- Adaptable sternum strap and cummerbund allow for a comfortable fit.
- Standard web strap with lightweight buckle holds the tank secure.
- Balanced inflator and three dump valves allow for pinpoint buoyancy control.
- Two zippered cargo pockets and three plastic D-rings provide lots of opportunities for carrying extra gear.

## AIR 2

Part number	Description	Retail
21.090.000	Air 2 5th Gen Octopus/Inflator	2,020
21.090.000U	Air 2 5th Gen With BCD upgrade	1,200

This excellent BC inflator/reg is in its 5th generation with dramatically improved work of breathing. Sleek ergonomic inflate/deflate controls allow for pinpoint buoyancy control.

- Test-proven breathing performance and cracking effort surpass many traditional downstream second stages when it comes to ease of breathing.
- New dive/pre-dive switch lets you detune the unit when not in use, eliminating free flows.
- Flexible purge cover is easy to locate and depress for quick clearing.
- Power inflate and deflate buttons are positioned on top of the housing for easy buoyancy control.
- Power inflate button features a lighter lever for easy inflation.
- Power inflate and deflate buttons can be differentiated by color and touch due to their different shapes and sizes, improving ascent control and safety when inflating or deflating the BC.
- CE certified EN250A>10°C/50°F warm water test controls) as a second stage regulator.

- Made from 100% Everflex neoprene, an X-Foam formulation, for durability and better health.
- **Suits are assembled using a solvent-free water-based glue, a 100% green process.**
- Multi-thickness panels deliver a superior combination of warmth and flexibility.
- Pure Design Concept uses fewer seams and panels for maximum range of motion.
- Double blind-stitched outer seams are durable and watertight, and single blind-stitched inner seams are comfortable against bare skin.
- Diamond Span inner lining's water-draining material enhances cold water protection. It is combined with a second lining for improved stretch, making donning and doffing that much easier.
- Diagonal rear YKK zippers with KA brass sliders offer increased long-term durability and ease of use.
- Wrists and ankles feature fuse-cut finished cuffs that are super-stretchy for easy donning and exceptional comfort (3/2mm).
- Small neck zippers enhances topside comfort.
- Innovative design delivers an improved fit.
- Seat areas are protected by an abrasion-resistant outside lining to increase durability and extend the life of the suits.
- Compression-molded zipper flap/spine pads reduce water entry and increases back protection.
- Tatex knee and shoulder pads offer protection against abrasion.
- Extensive range of sizes for both men and women means all divers can enjoy the perfect fit and the ultimate in comfort.

BLUE DIAMOND SPAN inner lining with water-draining material enhances cold-water protection.

With the Definition 3mm SCUBAPRO takes all of the premium construction materials found on the Definition 5mm and includes special tailoring to create a suit that fits the body like no other, and provides extra stretch where it's needed most. The suit offers a level of warmth and comfort any warm-water diver will love.

- Made from X-Foam neoprene, the only “green” neoprene that complies with P.A.H. regulations.
- Built with the Body Map System, an exclusive manufacturing method that uses special tailoring and material inserts to compensate for the stresses of the human body.
- Ultraspan chest panel and Stretchtec side panels work together to produce a highly flexible and snug fit.
- Infrared (IR) fleece interior lining reflects body heat for extra thermal insulation and is extremely soft against the skin.
- Zippered seals at wrists and ankles plus a rear diagonal zipper block water entry, are comfortable and make the suit easy to put on and take off.
- Abrasion resistant fabric on shoulders and seat, along with elbow pads and kneepads, increase long-term durability.
- Spine pad cushions the tank, providing additional comfort during extended dives.
- Small neck zipper enhances topside comfort, eliminating the need to remove the suit between dives.
- I-Safe strap keeps a wrist instrument securely attached.

## SCUBAPRO's SOLVENT-FREE GLUE - We're Always Thinking Green

As part of our ongoing efforts to do what we can to make our planet healthy, three years ago SCUBAPRO introduced another environmental first – a solvent-free adhesive used in the construction of our neoprene wetsuits. Today, all SCUBAPRO neoprene drysuits, wetsuits, shortys, hoods and gloves thicker than 1.5mm feature solvent-free glue to better protect divers and the environment.

This glue is tough as nails – SCUBAPRO engineers made sure of that with rigorous testing spanning more than 400 hours. So divers can be confident that they are not only wearing the most comfortable, durable dive suit available, it's also more compatible with a healthy environment.

- Solvent-free adhesive formula.
- Tough as nails.
- Used on the NovaScotia 7.5mm and Sport 7mm Hooded semi-dry suits.
- Used on all Everflex, Definition, Sport, Rebel & Hybrid steamers and shortys 1.5mm and thicker.
- Used on all hooded vests, hoods, and gloves 1.5mm and thicker.

This new-generation Sport steamer has been updated with new features and a fresh look. An ultra-comfortable dive suit designed for the tropics, it is a great choice for new divers, casual divers, and first-time suit buyers who enjoy warm water island diving in moderate to shallow depths.

- Made from X-Foam neoprene, the only “green” neoprene that complies with P.A.H. regulations.
- Designed to keep new divers and casual divers warm and comfortable while diving in moderate to shallow depths.
- Pure Design Concept uses fewer seams and panels for maximum flexibility.
- Triathlon cut employs wider panels covering the underarm and back areas that allow unrestricted arm and shoulder movement.
- Main vertical-cut YKK rear zipper with KA brass slider offers increased long-term durability and ease of use.
- Single-cuff ankles and wrists are backed with plush inside.
- The interior is lined with a plush material that enhances comfort and warmth and dries quickly.
- High-stretch neoprene is great for hard-to-fit divers who can now enjoy a suit that molds comfortably to the body.

When having slightly less thermal layering is the plan for the dive day, SCUBAPRO offers this thinner, lighter 2.5mm version of its classic hooded vest. Made from 100% Everflex neoprene, it is flexible and comfortable, making it the ideal thermal under layer for any SCUBAPRO steamer.

- Provides a thin neoprene protective layer over the torso and head, two critical areas for minimizing heat loss.
- Everflex neoprene is super-stretchy so it's easy to don and doff.
- Fast-drying, the vest remains comfortable for use and reuse during a long dive day.
- Light graphic print on side panels enhances styling.

- Neoprene is lightweight, durable, water repellent and a highly efficient insulator for heat retention.
- Assembled using solvent-free Aqua glue, a 100% green process.
- High-tech plush and fleece lining reduces water flow and provides both comfort and extra warmth.
- Design helps block water intrusion to reduce convection.
- Provides effective insulation under water as well as at the surface.
- A slightly higher neck delivers maximum comfort and protects from BCD chafing.
- High stretch neoprene is easy to don and doff and offers excellent range of motion.
- Designed to be worn by itself or with Everflex 1.5mm pants and shorts.
- Solvent-free glue.
- Same sizing as wetsuits.

- Neoprene is lightweight, durable, water repellent and a highly efficient insulator for heat retention.
- Assembled using solvent-free Aqua glue, a 100% green process.
- High-tech plush and fleece lining reduces water flow and provides both comfort and extra warmth.
- Design helps block water intrusion to reduce convection.
- Provides effective insulation under water as well as at the surface.
- High stretch neoprene is easy to don and doff and offers excellent range of motion.
- Designed to be worn with Everflex 1.5mm long sleeve or short sleeve thermal tops.
- Solvent-free glue.
- Same sizing as wetsuits.

The best UV protection rating the industry has to offer. UPF 80 dive wear is tested using the UV Standard 801, which tests fabrics in their “worst-case” scenario. In other words, in real world conditions of use – wet and stretched – two stress factors that adversely affect a fabric’s protective qualities. A UPF 80 rating represents the ultimate in quality and UV protection, wet or dry.

## HYBRID THERMAL 1MM - MEN

# NOVA SCOTIA 7.5/6.5 MM SEMI-DRY WITH HOOD

Part number	SIZE	Retail
63.696.200K	S	6,300
63.696.300K	M	6,300
63.696.400K	L	6,300
63.696.500K	XL	6,300
63.696.600K	2XL	6,300

Offering a snug-fitting, flexible dive suit with good thermal properties and minimal water intrusion, the new novaScotia semi-dry is the perfect solution for staying very warm and relatively dry while virtually eliminating hydrodrag, radically improving a diver's ability to move easily through the water. With its new 7.5/6.5mm thickness, easy-zip waterproof YKK Aquaseal Vislon zipper, improved plush lining to increase warmth and stretch, and a long list of convenience features, the novaScotia is the diver's answer to a comfortable, affordable semi-dry suit. Positioned between a traditional wetsuit and a neoprene drysuit, the novaScotia delivers the best of both worlds in cold water, temperate water, and multi-dive thermal protection.

- CE certified a Class A dive suit -- rated for water temperatures ranging from 7°C to 12°C).
- **New 7.5/6.5mm suit is made of 100% Everflex neoprene, an X-Foam formulation for better health, and it is assembled using eco-friendly solvent-free Aqua glue.**
- Pure Design Concept uses fewer seams and panels to ensure maximum flexibility.
- Blind-stitched seams block water entry.
- Internal stress discs installed at stitch intersections protect seams, extending the suit's working life.
- Rear shoulder-to-shoulder YKK Aquaseal Vislon waterproof main zipper with heavy-duty plastic slider is flexible yet provides an excellent seal against water entry.
- New plush interior liner in the arms, legs and shoulder areas increases warmth and stretch.
- Double zippered seals on ankles and wrists feature KA brass sliders for durability, water-tightness and ease of use.
- Fold-under neck seal is ultra-comfortable and keeps water seepage to a minimum.
- Right thigh 3D pocket offers lots of room for carrying extra gear. The hood hook has been moved to the outside of the pocket for added convenience.
- Shoulders and kneepads feature both anti-abrasion patterns and extra rubber prints to provide protection while adding a stylish look.
- Enhanced spine pad provides a welcomed cushion where the tank hits the diver's back.
- I-Safe straps on both arms offer non-slip mounting spots for securing wrist instruments.
- Available in black for men.
- Hood included.

BLUE DIAMOND SPAN inner lining with water-draining material enhances cold-water protection.

updated

For 2019, the popular Delta 5mm, our top-selling leisure dive boot, gets a refresh. The boot maintains its sturdy but flexible outsole and rubberized protective armor, yet still feels very light on the foot. A revised ankle diameter and new contoured top improve fit and make sliding the YKK zipper up and down even easier. A full cut creates a comfortable, cramp-free fit.

Available in April 2019

This comfortable 3mm short boot is designed for tropical diving and snorkelling. Low-cut, lightweight, with just the right amount of protection, it slips on and off without the need for a zipper.

- Provides full-featured foot protection for warm-water diving.
- Light comfort sole offers good protection without being stiff or heavy.
- Can be comfortably worn with adjustable fins.

The 4mm Base boot is an economical boot built for temperate water diving. Its rubberized armor on the toe and heel cap offers additional protection without sacrificing comfort. A thin sole increases flexibility while providing an effective antislip tread.

- Thin rubber sole increases flexibility while providing an effective anti-slip tread.
- Toe cap provides cushioning while protecting against abrasion from the edge of the fin pocket.
- Heel cap includes a molded fin strap keeper.
- The long zipper makes it easy to put it on. Secured with a Velcro tab.
- Exterior size logo is ideal for groups and rental applications.

updated

- Using heat taping instead of traditional stitching transforms this lightweight glove into an extremely soft, flexible and tactile
- hand-warmer. By eliminating the stitching you gain in dexterity in the fingers, making it much easier to push buttons and handle gear at depth.

## SYNERGY 2 TRUFIT

Part number	Color	Skirt Color	Retail
24.838.140	Silver - Mirror Lens	Black	720
24.838.130	Silver	Black	600
24.838.310	Red	Black	600
24.838.200	Blue	Clear	600
24.838.500	Yellow	Clear	600
24.838.700	Pink	Clear	600

- Ultra-clear glass provides a bright and clear view of the underwater world.
- New-generation Trufit Technology design uses two skirts for creating a comfortable, watertight seal.
- Main skirt offers a thin and soft silicone material for the best possible fit, seal and comfort against the skin.
- Outer skirt, made with firmer silicone, provides support and rigidity where needed.
- Trufit Technology can be identified by its unique ribbing texture.
- Rotating buckles work with a micro-adjustable strap to achieve a comfortable, watertight fit.
- Buckle tabs are flexible, enabling the mask to be folded flat for traveling.
- Mirrored lens option delivers a glare-free view of the underwater world.

24.713.230	Turquoise	Black	460
24.713.700	White/Pink	Clear	460

- Trufit Technology can be identified by its unique ribbing texture on the mask skirt.
- Silicone near the mask frame is thicker and firmer with a matte finish for additional support and rigidity.
- Silicone contouring the face is thinner, providing a pliable, comfortable watertight seal.
- Push-button buckles attach to tabs on the skirt to optimize range of motion when dialing in fit.
- Rotating buckles work with a micro-adjustable strap to achieve a comfortable, watertight fit.
- Buckle tabs are flexible, enabling the mask to be folded flat for traveling.
- Mirrored lens option delivers a glare-free view of the underwater world.

## NEXUS

Part number	Color	Retail
26.810.100	Black	350
26.810.220	Metallic Blue	350
26.810.320	Metallic Red	350
26.810.500	Yellow	350

The low-drag Nexus is fitted with a rotating mouthpiece so you can position it perfectly for maximum comfort. It also has an angled purge valve to divert bubbles out of the line of sight. The oval shape of the upper tube minimizes drag and allows for a lot of air to flow. It is also flexible, so if you don't want to hang the Nexus from your mask strap, you can fold it up and stow it in a BC pocket.

- Splashguard top design helps keep water from entering the large-bore barrel.
- Flexible, corrugated section is easy to use and drops away from face when not needed.
- Angled purge directs bubbles out of your sight line.
- Ergonomic mouthpiece offers maximum comfort during long snorkel sessions.
- Flexible upper barrel allows snorkel to be folded for stowing.
- Quick-connect clip makes it easy to attach or remove snorkel from mask strap.

## DIVE'N ROLL LIGHT

Part number	L	W	H	V	Wg.	Retail
53.360.170	66	40	32	84	3.98	2,400

The 2-in-1 concept of the Dive 'N Roll wheeled bag takes the hassle out of dive travel, and this new lighter version eliminates some of the weight. The back portion of the main compartment is semi-rigid to lighten the load while providing outstanding protection. Separate the two pieces for quick baggage stowage and carry-on convenience, then zip them together and you're ready to roll again.

- One semi-rigid case plus one removable soft bag equals a hassle-free gear transport system.
- Non-rigid portion of the exterior is made from a combination of 420D Nylon NT, 450D Rip-stop and 600D Polyester/PU for strength and durability.
- Large main compartment holds lots of dive gear while providing plenty of protection.
- Coil double-slider zippers are durable and make accessing the large main compartment that much easier.
- Additional packing space in the main compartment's soft lid is ideal for stashing clothes and other soft goods.
- Detachable backpack enables you to keep your most valuable gear with you throughout your journey.
- Two rubber-covered handles plus a telescopic tow handle and reinforced saltwater-resistant wheels offer a bevy of lifting, carrying and rolling options.
- Dimensions: 66x40x32cm. Weight: 3.98g. Volume: 84L.

## CARAVAN BAG

Part number	L	W	H	V	Wg.	Retail
53.350.120	75	40	35	105	4.65	1,980

The Caravan will cart your dive gear safely and conveniently, no matter where in the world you do your diving. As a roller bag it works great moving gear from car trunk to local dive boat, but it can just as easily negotiate crowded airports as you journey to exotic dive destinations. Easy to lift, carry and roll, the Caravan is a solid all-round choice for hassle-free gear transport.

- Bag's exterior is made from a combination of 420D Nylon NT and 450D Rip-stop for strength and durability. The interior lining is 150D Polyester.
- The bag enjoys a 20% lighter overall weight thanks to the new PU lining and updated construction.
- Offering over four gallons more volume than its predecessor, the Caravan comes with substantially increased gear-packing capacity.
- A large main compartment with U-shaped opening, two side pockets and one flat pocket on top provide a variety of packing and stowage options.
- YKK saltwater-resistant double-slider zippers are durable and allow for easy access of the large main compartment.
- External compression straps help snug down a partial load to make bag handling easier.
- Telescopic double-bar tow handle, side, top and bottom carry handles and reinforced saltwater resistant wheels provide a bevy of lifting, carrying and rolling options.
- Dimensions: 75x40x35cm. Weight: 4.65kg. Volume: 105L.

## PORTER BAG

Part number	Description	L	W	H	V	Wg.	Retail
53.310.120	Porter Bag	85	57	36	174	2.65	1,560

This big carrier offers lots of volume to handle your gear. It comes with reinforced “off-road” skate-style roller wheels plus a backpack system, so you’ll be able to easily roll or carry the bag wherever you want to go. But what’s really great about the Porter Bag is its easy-fold feature that allows it to stow compactly as it awaits your next dive adventure.

- Bag’s exterior is made from a combination of 420D Nylon NT and 450D Rip-stop for strength and durability. The interior lining is 150D Polyester.
- The bag enjoys a 20% lighter overall weight thanks to the new PU lining.
- Offering lots of gear carrying capacity, the bag folds into a compact package for storage.
- Large main compartment, two front pockets and two inside pockets provide a variety of packing and stowage options.
- YKK saltwater-resistant double-slider zipper is durable and makes accessing the large main compartment that much easier.
- Backpack system plus top handle with reinforced “off-road” skate-style wheels provide multiple transport options.
- Adjustable top handle makes rolling easy and convenient.
- Dimensions: 85x57x36cm. Weight: 2.65kg. Volume: 174L.
- Folded dimensions: 51x41x18cm.

## CABIN BAG 4 WHEELS

Part number	L	W	H	V	Wg.	Retail
53.365.170	53	37	19	37	3.18	1,450

Carry-on airline travel has never been easier. The new Cabin Bag now sports four wheels, making it more luggage-like and user-friendly and the ideal carry-on bag for traveling. The large main compartment with U-shaped double-slide coil zipper, along with smaller pockets on the inside and outside, are just a few of the features offered by this convenient multi-wheeled carry-on.

- Made of 500D heavy-duty PVC (Tarpaulin) fabric for the ultimate in durability.
- Large compartment includes elastic hold-downs to keep the load from shifting.
- U-shaped double-slider coil zipper provides easy access for packing or unpacking.
- Small horizontal pocket on the front cover and zippered inside pocket are perfect for stowing smaller items.
- Telescopic tow handle and 4 reinforced skate wheels allow for excellent balance and effortless maneuvering through busy airport terminals.
- Side and top carry handles make easy work of hefting the bag into overhead compartments.
- Conforms to new IATA size regulations.
- Dimensions: 53x37x19cm. Weight: 3.18kg. Volume: 37L.

## MESH BAG COATED

Part number	L	W	H	V	Wg.	Retail
53.120.200	70	35	35	86	0.65	600

This duffel-style mesh dive bag is made of durable PVC-coated mesh that lets water drain easily. Roomy enough – and strong enough – for a full set of gear, it is still lightweight and folds easily for storage. It is an ideal gear-hauler for live-aboard use or for carrying dive suits separately. Also excellent for carrying rental equipment when resort diving.

- Saltwater-resistant YKK Vislon zipper features double-sliders for added convenience.
- Dimensions: 70x35x35cm. Weight: 0.65kg. Volume: 86L.
- Padded carry handles make hefting the load that much easier.

## MESH BAG - POCKETABLE

Part number	L	W	H	V	Wg.	Retail
53.013.200	69	36	38	95	0.5	520

- Foldable duffel style mesh bag into its own pocket.
- Durable soft mesh material

## MESH BAG

Part number	L	W	H	V	Wg.	Retail
53.379.000	73	40	33	96	0.5	480

- Made of nylon mesh
- Top-loading U-shaped
- Saltwater-resistant YKK Vision zipper features double-sliders
- Padded carry handles
- Dimensions: 70x40x30cm, Weight: 0.49kg, Volume: 84L

## MESH SACK

Part number	L	W	H	V	Wg.	Retail
53.369.000	70	39	39	109	0.5	440

This lightweight nylon mesh backpack is the perfect carryall for snorkeling gear or tropical dive gear. Durable soft mesh material holds a lot cargo.

- Bag opening secures with a top rope fitted with a sliding, spring-loaded button closure.
- Main compartment handles the larger-sized gear while the front exterior pocket is perfect for small items.
- Padded shoulder strap makes it easy to sling the bag for the hike down to the boat or beach.
- Folds into a compact size for storage.
- Dimensions: 70x39x39cm. Weight: 0.5kg. Volume: 106L.

## REGULATOR BAG + INSTRUMENT BAG

Part number	Description	L	W	H	V	Wg.	Retail
53.309.000	Reg.	34	26	10	9	0.42	330
	Ins.	10	7	14	1	0.10	

- Constructed from a combination of 420D Nylon NT and 450D Rip-stop
- The interior lining is 150D Polyester
- Internal Velcro straps secure a coiled reg or console hoses
- Double slider zipper
- Padded handle and shoulder strap
- Transparent zippered pouch inside
- Regulator Bag dimensions:  
34x26x10cm, Weight: 0.42kg, Volume: 9L

# NOVA 2100 SF

Part number	Description	Retail
30.400.000	NOVA 2100 (Light only)	4,160
30.400.001	NOVA 2100 with Goodman Handle, Pistol Grip & GoPro Adaptor	5,300
30.400.005	LI-ION Battery 7.4V, 3200 Mah	1,000
30.402.000	1/4-20 Ball Joint Adaptor	300
30.403.000	1/4-20 Y-S Adaptor (Packaged)	360

The powerful new SF (Spot Flood) multi-use dive light offers both a 65° wide beam and a 15° spot beam to perfectly match different diving situations. Five light modes plus an emergency signal mode provide lots of versatility, with one-button control for easy operation. Extremely reliable, the waterproof battery compartment is isolated so even if the O-ring seal fails, water cannot reach the internal electronics. The Nova 2100 SF comes as a set with both a large and a small a Goodman handle, plus a pistol grip handle and a GoPro adapter. Both lights come with a wrist lanyard, rechargeable battery, charger and spare parts, all packed in a zippered EVA carry case.

- Dual beams include a powerful 2100 lumen 65° wide beam, and 800 lumen 15° spot beam.
- Wide beam features 6 Cree XM-L2 LEDs; the spot beam features 1 Cree XPL LED.
- Five primary light modes: 100% Flood, 50% Flood, 100% Spot, 50% Flood + 75% Spot, and 25% Flood + 50%Spot.
- Hidden emergency signal mode offers a one-second blink interval or a SOS Morse code. Simply push and hold the power button for four seconds to activate.
- Simple one-button control lets you power on and off, adjust brightness and switch beam angle.
- Provides 55 minutes of burn time at full power and constant brightness.
- Depth tested to 328ft/100m.
- Corrosion-proof metal light head improves heat dispersion and increases durability.
- Completely isolated battery compartment protects internal electronics from water intrusion.
- Universal 1/4-20 tripod mount attaches to a Goodman handle, Monopod or optional Y-S adapter.
- Complete Nova 2100 SF set includes: SCUBAPRO UW light head, wide and narrow Goodman handles, pistol grip handle, wrist lanyard, GoPro adapter, 25w lithium-ion rechargeable battery, AC power adapter, charging tray, international plug adapters, spare O-rings, O-ring lubricant, O-ring removal tool, EVA carry case with foam insert and instruction manual. Packaged in a four-color box.
